

# URAZ AKGÜL

**I am seeking a position that will allow me to utilize both my frontend and backend skills to their fullest potential.**

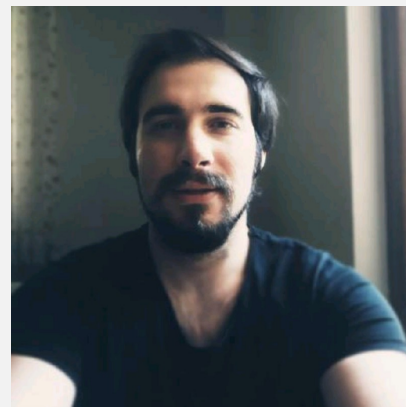

Hello there! My name is Uraz Akgül and I have been coding using R and Python programming languages for many years. As someone who is deeply passionate about software, I have decided to pursue a career in the software industry. I strongly believe that coding is about freedom, as it allows us to create new things and push the boundaries of what is possible. I take great pleasure in exploring new technologies and tools to find better and more efficient ways of solving problems. As someone who has taught themselves to code, I am constantly striving to learn and grow in this ever-changing field. My ultimate goal is to hold a prominent position in the industry, where I can use my skills to make a meaningful impact and contribute to the advancement of technology.
